

C# Programming

1.2 C# Comments

- Single-line comments start with two forward slashes (//).
- Any text between // and the end of the line is ignored by C# (will not be executed).
- Here are some examples for comment,

```
// This is a comment
```

```
Console.WriteLine("Hello World!");
```

```
Console.WriteLine("Hello World!"); // This is a comment
```

- Multi-line comments start with /* and ends with */.
- Any text between /* and */ will be ignored by C#.

```
/* The code below will print the words Hello World
```

```
to the screen, and it is amazing */
```

```
Console.WriteLine("Hello World!");
```
